ZOOMTEXT USER GUIDE

ZoomText is a screen-magnification software program. The levels of magnification are adjustable from 2X to 36X in full- or partial-screen zoom windows. ZoomText also has a basic screen reader as well.

ACTIVATE   1) Click on the start window icon in the toolbar at the bottom of the screen.
ZOOMTEXT: 2) Click on the ZoomText icon under Accessibility.
                            3) Wait for the program to load.

HELP: Click on Help in the ZoomText toolbar.

SPEECH: Turn Speech on or off, press (ALT) + (SHIFT) + (S)

CONTROLS: Turn ZoomText off, press (ALT) + (DEL).
                    Turn ZoomText on, press (ALT) + (INSERT).
                    Bring up the ZoomText User menu, press (CONTROL) + (SHIFT) + (U).
                    To close the ZoomText User menu, press (ESC)ape

ZOOM WINDOW TYPES: Make sure ZoomText is on (ALT) + (INSERT).
        To change zoom window types, bring up the ZoomText User Interface menu by
                pressing (CONTROL) + (SHIFT) + (Z).
                Click on Zoom Window and then click on type to select one of the five types of zoom windows.
                        Full - zoom window occupies the full screen
                        Overlay - partial-screen zoom window that lies on top of the normal screen
                        Lens - partial-screen zoom window that moves along with tracked activity
                        Line – zoom single line

MAGNIFICATION: Make sure ZoomText is on (ALT) + (INSERT).
        To adjust magnification, bring up the ZoomText User Interface menu by pressing
                (CONTROL) + (SHIFT) + (U).
                Set Magnification:
                        Increase – Press ALT key and NumPad PLUS key
                        Decrease – Press ALT key and NumPad MINUS key

COLOR INVERTING: Make sure ZoomText is on (ALT) + (INSERT).
        To adjust the color, bring up the ZoomText User Interface menu by pressing
                (CONTROL) + (SHIFT) + (U).
                        Click on Color to choose colors or invert colors (brightness).
