

Math Course Recommendations

for the Math Literacy Pathway (majors in the Arts, Humanities, and some Social Sciences)

Find your placement level, then follow the course map!

NOTES:

1. Progressing from one Math course to the other next always requires a grade of C or better
2. Some Social Sciences major may need Math 105 or 108 rather than 102 or 103, so should be on the "Professional Pathway". Consult your school/college advisor.
