

# Math Course Recommendations

for the Professional Pathway (majors in Business, Health Sciences/Nursing & some Social Sciences)

*Find your placement level, then follow the course map!*

## NOTES:

1. Progressing from one Math course to the other next always requires a grade of C or better
2. Some majors (e.g., Nursing) may take or require a different QLB course other than Math 211. Consult your school/college advisor.
