

Mac Set-up to Connect to the “eduroam” Option

NOTE: To complete the set-up process and connect, you must be in a building with UWM WiFi. Visit the Student Union, Golda Meir Library and other UWM buildings. To view the [building list](#) visit UWMWiFi.uwm.edu and click on the “WiFi Availability” link.

Step #1:

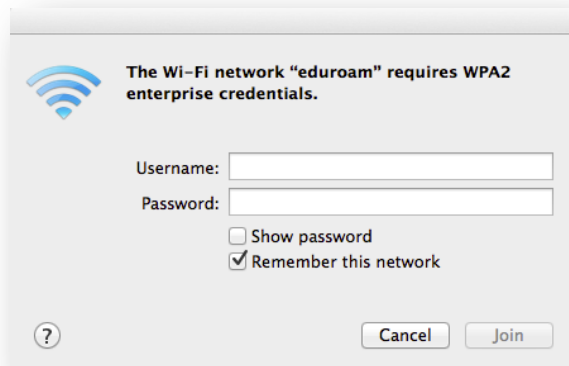

Select "eduroam" from your list of available wireless networks.

Step #2:

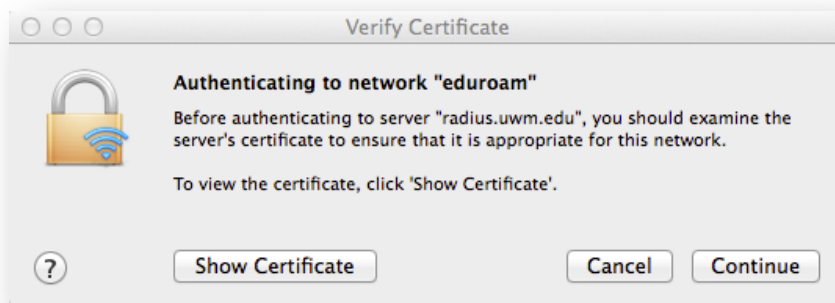

When prompted for your user name and password, enter your home institution’s use name as well as your home domain in the “username field” and then the corresponding password in the “password field.”

For members of the UWM community, this will look like your e-mail address, e.g. your ePantherID@uwm.edu.

Step #3:

Next you should accept the certificate.

**Step #4:**

You should now be connected and see a checkmark next to eduroam. It should look similar to the image below.

You have now configured your device to connect to the “eduroam” option when you enter a building with UWM WiFi.

Questions? Problems? Contact the UWM Help Desk at 414-229-4040 or at GetTechHelp.uwm.edu
