WISPER - Record Creation for Principal Investigators

WISPER facilitates the process of routing applications and agreements for extramural support by capturing data necessary to submit a proposal as well as providing a method for obtaining electronic signatures. As the Principal Investigator, you may be the initiator of the record creation process. This document will walk you through this process. Please feel free to leave fields empty if you do not know the requested information, unless explicitly told to provide information in the instructions.

This desk reference assumes that this is the first record of its kind created by the PI. If previously created records are available to copy, you should refer to the “Copy a Record” desk reference for information on how to quickly create a new record based on a previous record.

I agree to disclose promptly to the University any invention, computer software or mask work (collectively, "Project Intellectual Property") made by me in whole or in part, whether solely or jointly with others, during and in the course of the Project. If Project Intellectual Property is funded in whole or in part by a federal agency or if an agreement negotiated by the University for the conduct of the Project requires the University to grant rights in Project Intellectual Property to a third party, I agree that I will, if requested, assign rights to such Project Intellectual Property to the University's designated intellectual property management organization and will execute all documents necessary to secure protection for Project Intellectual Property, and to establish the federal government's or any other party's rights therein. I confirm that I am now under no obligation to any other person or extramural sponsor which is in conflict with my responsibilities as set forth above. I agree that the University reserves the right to make and use, for educational or research purposes, any intellectual property or material made by me in whole or in part, whether solely or jointly with others, during and in the course of the Project.

I agree to be responsible for assuring that all persons participating in the Project, other than clerical or non-technical persons, prior to commencing work on the Project have signed a copy of a document agreeing to essentially the same obligations as set forth above. (PI may use either a copy of the above language or may use the universal project participant statement found at http://www.graduateschool.uwm.edu/forms-and-downloads/researchers/intellectual-property-agreement.pdf)

I have read and hereby accept the terms and conditions of any agreement negotiated by the University for the conduct of the above-referenced Project. I agree that I will comply with the provisions of and will cooperate in assuring that the University's obligations to fulfill those terms are met.

After signing each statement, the PI name along with signature date and time will be stamped on the page as well as on the History page.
