In order to obtain external funding for their research programs, sometimes investigators are called upon to submit Letters of Intent and/or Pre-Proposals. If either of these requirements will need a budget or a signature from the Office of Sponsored Programs, a WISPER record needs to be done.

XII. Electronically Sign for the Award:

Although Pre-proposal will not result in “awards” so much as they will result in invitations for full proposal, the way that we are using the WISPER system to track these record will require you to “sign for the award”. Because the Proposal Type is “pre-proposal” we will be able to discern this type of record from a true proposal record when we run reports.

Principal Investigator Signature for Award

I agree to disclose promptly to the University any invention, computer software or mask work (collectively, “Project Intellectual Property”) made by me in whole or in part, whether solely or jointly with others, during and in the course of the Project. If Project Intellectual Property is funded in whole or in part by a federal agency or if an agreement negotiated by the University for the conduct of the Project requires the University to grant rights in Project Intellectual Property to a third party, I agree that I will, if requested, assign rights to such Project Intellectual Property to the University’s designated intellectual property management organization and will execute all documents necessary to secure protection for Project Intellectual Property, and to establish the federal government’s or any other party’s rights therein. I confirm that I am now under no obligation to any other person or extramural sponsor which is in conflict with my responsibilities as set forth above. I agree that the University reserves the right to make and use, for educational or research purposes, any intellectual property or material made by me in whole or in part, whether solely or jointly with others, during and in the course of the Project.

I agree to be responsible for assuring that all persons participating in the Project, other than clerical or non-technical persons, prior to commencing work on the Project have signed a copy of a document agreeing to essentially the same obligations as set forth above. (PI may use either a copy of the above language or may use the universal project participant statement found at http://www.graduateschool.lxmi.edu/forms-and-downloads/researchers/intellectual-property-agreement.pdf)

I have read and I hereby accept the terms and conditions of any agreement negotiated by the University for the conduct of the above-referenced Project. I agree that I will comply with the provisions of and will cooperate in assuring that the University’s obligations to fulfill those terms are met.

PI Signature Date & Time

After signing each statement, the PI name along with signature date and time will be stamped on the page as well as on the History page. The PI Signature page is only accessible to Principal Investigators; others will access the History page to verify that the signatures have been executed. If at any point in the process, the Division or OSP would like additional assurance regarding particular terms or the PI’s ability to perform the terms, an APPROVAL should be added. (Please refer to the “Request an Approval” desk reference).
12. **Route the Record:**

1. After completion of the PI signature process, you will need to route the record to your School/College who will also sign the record and submit it to OSP for submission to the sponsor. Note that you may also need to request approval of your department chair/center director or other office per instructions from your School/College. Click the “Route to Another Person” button at the bottom of the PI Signature page.

2. Select to whom you are routing the record.
   a. Select to route to a specific person button to launch a lookup tool for finding any person on campus. Selecting and verifying this person will trigger an email and the addition of the record to that user’s MY WISPER worklist.
   
   OR
