

TRANSFER GUIDE

UWM at Waukesha/Washington Co. to B.S. – ASL/English Interpreting - School of Education

Admission Guidelines

Transfer admission is a holistic and selective process, and no single criterion guarantees admission. The following factors are taken into consideration when reviewing applications:

- Demonstrated satisfactory academic progress
- Successful completion of college-level math and English courses
- Total credit hours completed
- Academic standing at your previous institution

If you have fewer than 12 transferable credits, we will also review your high school academic records.

Please keep in mind that some academic programs within the Peck School of the Arts, School of Architecture and Urban Planning, College of Engineering & Applied Science, and College of Nursing may have additional requirements for direct admission into their majors.

We encourage students to utilize this guide to plan their coursework for their first and second semesters at UWM at Waukesha or Washington County. We highly recommend that students who are interested in transferring contact a UWM Transfer Advisor for more information about additional requirements of specific academic programs.

ASL/English Interpreter Training Program Information

The Interpreter Training Program (ITP) goes beyond teaching students about language, culture and how to facilitate conversations. Our program philosophy, “Deaf Heart Starts Here,” takes hold the moment you begin. We work to develop well-rounded interpreters who value and consider others’ perspectives; students who are culturally sensitive and empathetic practitioners who continually work to better themselves and the interpreting profession.

Students new to ASL should begin with ASL 1. In the case that a student has a background in ASL, the first step is for a student to complete one of two approved screening options to determine their level of fluency. The first screening option is the American Sign Language Proficiency Interview (ASLPI), administered by Gallaudet University, but proctored at UWM. The ASLPI costs \$185 and depending on course placement, a student can be eligible for a maximum of 12 retroactive credits by successfully completing the course with a B or better. The second screening option, is the American Sign Language Screening Placement, which is a 15-20 minute interview conducted by a UWM ASL instructor. There is no cost associated with this screening and no retro credits will awarded.

Please note, UWM does not award transfer credits for ASL coursework completed at other institutions. It is strongly encouraged that a student transfer as soon as possible due to the sequencing of the required language courses.

In addition to the course requirements listed below, this program has additional completion requirements. Please consult with an advisor at UW-Milwaukee to learn more about these requirements.
