

TRANSFER GUIDE

MATC to

Communication Sciences and Disorders – UWM College of Health Sciences

Admission Guidelines

Transfer admission is a holistic and selective process, and no single criterion guarantees admission. The following factors are taken into consideration when reviewing applications:

- Demonstrated satisfactory academic progress
- Successful completion of college-level math and English courses
- Total credit hours completed
- Academic standing at your previous institution

If you have fewer than 12 transferable credits, we will also review your high school academic records.

Please keep in mind that some academic programs within the Peck School of the Arts, School of Architecture and Urban Planning, College of Engineering & Applied Science, and College of Nursing may have additional requirements for direct admission into their majors.

We encourage students to utilize this guide to plan their coursework for their first and second semesters at [other institution]. We highly recommend that students who are interested in transferring contact a UWM Transfer Advisor for more information about additional requirements of specific academic programs.

Admission to Communication Sciences and Disorders Major Requirements

To be formally admitted to the major students must complete CSD 220, 230 and 240 with a cum within those 3 of a 3.00 on the first time. These courses cannot be repeated. Students also must have 58 credits completed, a cum gpa of a 2.75 and math and English proficiency completed. If the credits haven't been reached or a proficiency has yet to be done, you can contact Dr. Lund to request review for the student. Typically this has been allowed in the past as long as the grades in the prereqs meet the mins.
