

TRANSFER GUIDE

Milwaukee Area Technical College to B.S. - American Sign Language - School of Education

Admission Guidelines

Transfer admission is a holistic and selective process, and no single criterion guarantees admission. The following factors are taken into consideration when reviewing applications:

- Demonstrated satisfactory academic progress
- Successful completion of college-level math and English courses
- Total credit hours completed
- Academic standing at your previous institution

If you have fewer than 12 transferable credits, we will also review your high school academic records.

Please keep in mind that some academic programs within the Peck School of the Arts, School of Architecture and Urban Planning, College of Engineering & Applied Science, and College of Nursing may have additional requirements for direct admission into their majors.

We encourage students to utilize this guide to plan their coursework for their first and second semesters at MATC. We highly recommend that students who are interested in transferring contact a UWM Transfer Advisor for more information about additional requirements of specific academic programs.

American Sign Language Studies Program Information

The ASL Studies Program aspires to foster a sense of “Deaf Heart” in the individuals who study this language and culture. These individuals then become allies to the Deaf community and carry the skill and knowledge necessary to inspire change in their chosen careers. American Sign Language is widely used in the United States and Canada, and has become one of the most popular language courses on college campuses across the U.S. The UW-Milwaukee ASL Studies Program provides a strong language foundation for the students who have a passion for working in the Deaf community or the field of ASL linguistics.

Students new to ASL should begin with ASL 1. In the case that a student has a background in ASL, the first step is for a student to complete one of two approved screening options to determine their level of fluency. The first screening option is the American Sign Language Proficiency Interview (ASLPI), administered by Gallaudet University, but proctored at UWM. The ASLPI costs \$185 and depending on course placement, a student can be eligible for a maximum of 12 retroactive credits by successfully completing the course with a B or better. The second screening option, is the American Sign Language Screening Placement, which is a 15 to 20 minute interview conducted by the UWM ASL Studies coordinators or instructors. There is no cost associated with this screening and no retrocredits will awarded.

Please note, UWM does not award transfer credits for ASL coursework completed at other institutions. It is strongly encouraged that a student transfer as soon as possible due to the sequencing of the required language courses.
