

TRANSFER GUIDE

Milwaukee Area Technical College to Nutritional Sciences – College of Health of Sciences

Admission Guidelines

Transfer admission is a holistic and selective process, and no single criterion guarantees admission. The following factors are taken into consideration when reviewing applications:

- Demonstrated satisfactory academic progress
- Successful completion of college-level math and English courses
- Total credit hours completed
- Academic standing at your previous institution

If you have fewer than 12 transferable credits, we will also review your high school academic records.

Please keep in mind that some academic programs within the Peck School of the Arts, School of Architecture and Urban Planning, College of Engineering & Applied Science, and College of Nursing may have additional requirements for direct admission into their majors.

We encourage students to utilize this guide to plan their coursework for their first and second semesters at MATC. We highly recommend that students who are interested in transferring contact a UWM Transfer Advisor for more information about additional requirements of specific academic programs.

Admission to Nutrition Major Requirements

All Major Prerequisite classes must be completed with a grade of "C" or better; no more than four Prerequisite courses may be repeated once. Minimum UWM GPA of 2.50 & Core GPA of 2.75 required. No more than three Core and Advanced Core courses may be repeated once.
