

# TRANSFER GUIDE

## Madison College to Health Care Administration – College of Health Sciences

### **Admission Guidelines**

Transfer admission is a holistic and selective process, and no single criterion guarantees admission. The following factors are taken into consideration when reviewing applications:

- Demonstrated satisfactory academic progress
- Successful completion of college-level math and English courses
- Total credit hours completed
- Academic standing at your previous institution

If you have fewer than 12 transferable credits, we will also review your high school academic records.

Please keep in mind that some academic programs within the Peck School of the Arts, School of Architecture and Urban Planning, College of Engineering & Applied Science, and College of Nursing may have additional requirements for direct admission into their majors.

We encourage students to utilize this guide to plan their coursework for their first and second semesters at the Madison College. We highly recommend that students who are interested in transferring contact a UWM Transfer Advisor for more information about additional requirements of specific academic programs.

### **Admission to Health Care Administration Major Requirements**

The Health Care Administration program will consider applications to the major at the end of each semester, as long as your cumulative UWM GPA is 2.5 or above, you have completed the admission prerequisite courses, and you have met the grade requirements for required courses. You are encouraged to apply to the major as soon as you meet these requirements and have achieved sophomore status.

*The following courses are prerequisites for admission:*

- COMMUN 103: Public Speaking
- ENGLISH 102: College Writing and Research or completion of the UWM English competency requirement
- ECON 103: Principles of Microeconomics or ECON 104: Principles of Macroeconomics
- MATH 105: Intermediate Algebra or a Math placement level C on the proficiency test
- HS/HCA 102: Healthcare Delivery in the United States
- HCA 220: Leading Healthcare Professionals
