University of Wisconsin Milwaukee
College for Kids & Teens (CFK&T)

Children with Special Needs Form

Children with special needs (including medical, physical, mental, academic, social or dietary needs) may be accepted into the College for Kids & Teens (CFK&T) programs. Please note that UWM’s College for Kids & Teens does not employ individuals certified and trained to handle specific special needs. To assist us in working with your child, please indicate any special needs below and return the form at least two weeks prior to the start of your child’s scheduled session. We may also request a conference or additional information in order to evaluate your child’s needs.

If your child requires any medication (prescription or non-prescription) while they are attending, you must also complete a “Medication Authorization Form”. If your child has any medication restrictions please indicate those below under the “Your child’s Needs:” section, CFK&T does not have the resources available to administer prescription or non-prescription medication. Any child needing medication must be able to self-administer his or her medication. In the event that your child is not able to self-medicate, you will need to make arrangements to have a parent or guardian administer the medication during the program. For safety reasons, we will store the medication for your child to self-administer.

Child’s Name:__________________________________ Age:__________________________

Please explain your child’s needs below:
