UWM College for Kids and Teens - DAILY Symptom Check

Student Name: ___________________________  Date: ___________________

Q 1: Has your child developed any of the following symptoms within the last 24 hours?

- New loss of sense of taste or smell
- Cough
- Fever greater than 100.4°F
- Shortness of breath/trouble breathing

If your child has any of the above symptoms, they and any other campers residing in the same household should not attend camp and will be sent home from camp if symptoms occur while at camp. If shortness of breath or trouble breathing occur during the program, we will follow emergency protocols and contact the family and 911.

Your child should isolate, be tested for COVID-19*, and parents should contact their healthcare provider for further guidance.

Q 2: Has your child developed any of the following symptoms within the last 24 hours?

- Sore throat
- Unusual fatigue
- Muscle or body aches
- Nausea (sick to stomach) or vomiting
- Runny nose or nasal congestion
- Diarrhea
- Headache

If your child has 2 or more of the symptoms in Q 2, they and any other campers residing in the same household should not attend camp and will be sent home if symptoms occur while at camp. Your child should isolate, be tested for COVID-19*, and parents should contact their healthcare provider for further guidance.

If your child has either vomiting or diarrhea they and any other campers residing in the same household should not attend camp and will be sent home. Your child should isolate, be tested for COVID-19* and contact their healthcare provider for further guidance.

*Any child with possible COVID-19 symptoms will need to either provide a negative COVID-19 test to re-enter the camp or provide a healthcare provider note that the symptoms are not COVID-19 related.

Protocol adapted from Wisconsin Department of Health Services guidelines for K-12 schools:
