Others in attendance:

1. Agenda, May 9, 2022 meeting minutes, and Role of PEC Transportation Subcommittee were approved by consensus
2. Parking & Transportation Sustainability
 - a. Kate & Bob updated the committee. There have been positive conversations between campus groups and the city to build partnerships in this exciting and important work to assure it's both effective and sustainable. The Kenwood & Downer intersection is a priority for traffic calming measures and a traffic study of Hartford and/or Maryland is in early planning stages.
 - b. We discussed that UWM's Climate Action-Carbon & Resilience Plan is connected to pedestrian safety. Campus is looking at the transportation needs of visitors, students, and employees from a bigger and broader perspective.
