1. Meeting agenda approved by automatic consensus.
2. October meeting minutes approved by consensus.
3. Parking & Transportation Sustainability initiatives
 - a. Kenwood & Downer rapid implementation project update
 - i. John reported that this project is completed short of removal of some construction barrels and barriers.
 - b. Edgewood update – John reported that this project is complete and that so far, observed use of the street has been favorable. [City of MKE has a website available to solicit feedback.](#)
 - c. Hartford & Maryland – working with City for future improvements. Also planned construction on Downer in Shorewood (North of Edgewood). Stephen expressed offer to provide support for the planning of the project via review of plans and documentation as possible. It was suggested that Hartford Ave should be included in discussion of changes.
4. Returning to campus: can changes to UWM parking systems encourage this practice?

- a. A discussion ensued regarding many aspects of parking on campus, from flexibility of hourly parking, to evening rates and access to parking. Committee members shared their observations and opinions on what works or does not and why. Prasanna provided his professional based reasoning for the systems we are employing. He shared general data that shows UWM is far below peer institutions in regards to quantity and revenue of parking citations (UWM only has 2 enforcement officers on duty at any given time). For future meetings, we will try to focus on discussion of proposed solutions.
