Dear Ms. Henry:

I am writing to apply for the education-presentation specialist position which was advertised on December 20th on the Shedd Aquarium website. I graduated from the University of Wisconsin-Milwaukee with a degree in biological sciences. I believe my biology education and dedicated volunteerism in the environmental/wildlife fields will combine well to contribute to your aquarium education program.

As a biological sciences major at UWM, I had the opportunity to concentrate on any area in that field, and I chose animal science. Focusing on animals allowed me to gain extensive knowledge of their anatomy and behavior which will be an asset to creating educational programs and providing presentations to the public. I believe that one of the functions of an aquarium is to raise awareness about environmental issues by using the animals as ambassadors.

I have been involved in environmentalism since elementary school and have presented programs to younger students as a member of the Conservation Club in high school. Being a volunteer at the Milwaukee County Zoo has given me the opportunity to present educational information about the animals to children and adults. In addition to knowing facts from guidebooks provided to volunteers, I can also draw on my own personal experience and knowledge to further inform the public.

I would appreciate the opportunity to further discuss the education-presentation specialist position and how my skills and experience align with the position and your organizations goals.

Thank you for your consideration.

Sincerely,

Jennifer Smith

Pat Thomas
Human Resource Director
ABC Corporation
7709 West Broadway
Milwaukee, Wisconsin 00000

Dear Mr. Thomas:

I am writing to apply for the assistant product manager position which was advertised in the June 10th edition of the Milwaukee Post. My previous experience with marketing and product promotion and my competencies with media advertising will allow me to contribute to the ongoing success of ABC Corporation. A resume of my background and skills is enclosed.

As an assistant manager for an appliance store, I gained experience in the areas of marketing development, implementation and evaluation. I was responsible for analyzing and evaluating marketing trends for future product promotions and assisted the store manager with the development and implementation of a direct mail promotion for the store's annual "Summer Blowout Sale". The event resulted in over \$100,000 in storewide sales. The position required strong computer, problem- solving, analytical and organizational skills.

I am aware that ABC Corporation is new to the athletic apparel industry and has seen rapid growth in the Midwest. To continue this growth, successful communications to customers via various media will be important. I have two years of experience working with the local media for advertising store promotions. Class projects developing and using e-commerce technology and other media packages to reach customer markets were a part of my academic program.

I would appreciate the opportunity to speak with you to discuss the assistant product manager position and my future with ABC Corporation. Thank you and I look forward to hearing from you.

Sincerely,

John Doe
