COURSE REQUIREMENTS
Social Work Field Education courses are designed to provide students with the opportunity to develop and demonstrate social work competencies through their practicum placement in a community agency setting. Agency Field Instructors have the responsibility of providing the student with the educational component of this direct practice learning experience. The Field instructor is also responsible for evaluating the student’s competency in a variety of social work education competency domains.

The Social Work Field Program requires a Learning Plan be completed, signed and submitted on the Canvas course site shortly following the 40-hour point in the student’s field practicum. Students are also required to complete both a mid-term progress report and final self-evaluation. The Field Instructor completes an online final evaluation of the student’s progress, which serves a part of the grading mechanism for the field practicum course and as a means of providing feedback to the student. The aggregate scores on the final evaluation contribute 75% of the student’s grade in the field education course.

The corresponding Integrated 422 Field Seminar includes several writing assignments to allow students to demonstrate their professional social work writing skills with feedback from the Instructor. 25% of the SOC WRK 422 grade consists of the student’s assignments submitted in the field seminar in addition to their class attendance.

The final grade reflects: 1) the student’s demonstrated level of competency in meeting the field course objectives in their practicum, 2) completing all assignments which are required in the Integrated Field Seminar and by the agency, and 3) attendance and participation in the Field Seminar. Students are required to complete a minimum of 256 practicum hours at the agency and in the weekly integrated seminar (counts for 1 hour of field) and all field documentation as outlined in the field policies on the Field Education website. The Seminar grade calculation is completed by the Instructor and the final SOC WRK 422 course grade is calculated by the assigned Field Liaison.

***The Mid-term Progress Report, should be used to assist the student and Field Instructor in the assessment of the student’s skill level in a variety of areas, and should directly influence the student’s learning opportunities for the remainder of the semester. The Mid-Term Progress Report is not graded. It is used as a supervisory tool to gauge the student’s current level of performance in their practicum. The Mid-Term reports do need to be uploaded on the Canvas course site at the mid-term point in the semester.

All required field hours, and completed and signed evaluations, must be completed by the end of the semester unless an Incomplete Request has been signed by the student and Field Instructor and
uploaded into the Canvas Field Document course site prior to the grading deadline.
GRADING POLICY
The final grade earned by the student is determined by the following course components. Missing, late or unacceptable Learning Plans, Self-Evaluations, and Verification of Field Hours will result in a percentage reduction per missed document as follows:

- Learning Plan – 3%
- Mid-Term Self-Evaluation – 3%
- Final Self-Evaluation – 3%
- Field Hour Verification Form – 3%

Late documents will result in a 1.5% percentage point reduction per document.

Field education is a social work course where grades are assigned based on overall student progress. Students do not all get A’s in the field course. Grades of B and B+ are acceptable grades and indicate that the student has met the criteria for the semester. A grade of “A” is awarded only for those students who have done exceptional work. A grade of B- is not considered a passing grade for field education and requires that students repeat the field course. This may impact a student’s completion of the social work program.

If you have any questions related to the field assignments you should contact your assigned Field Liaison.
