**COURSE REQUIREMENTS**

Social Work Field Education courses are designed to provide students with the opportunity to develop and demonstrate social work competencies through their practicum placement in a community agency setting. Agency Field Instructors have the responsibility of providing the student with the educational component of this direct practice learning experience. The Field instructor is also responsible for evaluating the student’s competency in a variety of social work education competency domains.
The Social Work Program requires both a mid-term progress report and final evaluation of the student’s performance to be completed by the student as a self-evaluation, and by the Field Instructor as a means of providing feedback to the student. The aggregate scores on the final evaluation contribute 75% of the student’s grade in the field education course. The remaining 25% of the grade consists of the completion of the Field Assignments (supervision tools) totaling five points per semester; the quality of the Field Assignments including content, neatness, compliance with directions for assignments, and compliance with established due dates for the submission of the required field course documents.

The final grade reflects: 1) the student’s demonstrated level of competency in meeting the field course objectives in their practicum and, 2) completing all assignments which are required by the school and by the agency. Students are required to complete a minimum of 320 practicum hours at the agency and all field documentation as outlined in the field policies on the Field Education website. The final SOC WRK 822 grade is calculated by the assigned Field Liaison.

***The Mid-term Progress Report, should be used to assist the student and Field Instructor in the assessment of the student’s skill level in a variety of areas, and should directly influence the student’s learning opportunities for the remainder of the semester. The Mid-Term Progress Report is not graded. It is used as a supervisory tool to gauge the student’s current level of performance in their practicum. The Mid-Term reports do need to be uploaded on the Canvas course site at the mid-term point in the semester.

All required field hours, assignments, and signed evaluations must be completed by the end of the semester unless an Incomplete Request has been signed by the student and Field Instructor and uploaded into the Canvas Field Document course site prior to the grading deadline.

FIELD ASSIGNMENTS
During each semester of your Field Placement you will be required to complete various assignments. Due to the variance in field education practicum sites you will have the opportunity to select some assignments which are consistent with the duties you have in your field practicum. These assignments are designed to be learning tools which will assist you in the integration between classroom and field, and all assignments are designed to address the development of social work competencies and to be consistent with social work education program objectives as defined by the Council on Social Work Education (CSWE).

At the beginning of your field placement you should meet with your agency Field Instructor to discuss which assignments from the assignment list would be a good fit for your level of experience and the program structure of the agency. (Assignments completed for other courses CANNOT be used for your Field Practicum assignment.)

You are required to earn a minimum of five points per semester. All assignments have point differentials consistent with the extent of the assignment. (Refer to individual assignment descriptions for all point values.) A detailed listing of all assignments can be accessed on the HBSSW Field Program webpage at http://uwm.edu/socialwelfare/field-assignments/
Once you and your supervisor have determined which of the assignments would provide you with the optimal learning experience you should complete the Learning Plan specifically outlining which assignments you intend to complete for the semester. (Not all assignments need to be identified on the learning plan. Assignments can be identified later in the semester as the student becomes more familiar with the agency program and the consumers.) Some assignments will require topic research. All published materials used for field assignments need to be documented with the relevant citations. It is also expected that the content and quality of all field practicum assignments be consistent with the graduate course expectations.

**Major Assignment for 2\textsuperscript{nd} Semester of Field:**
In lieu of minor assignments required each semester for your Field Program a student may elect to complete a “major” substantive assignment in their last semester of field at their current agency. All major assignments will require written approval from both the Field Instructor and the Field Liaison as documented on the Learning Plan. Examples of a major substantive assignment could be:

- Program Improvement Project
- Evaluation of Practice
- Summary and Analysis of Agency’s or Program’s Outcome Measures
- Development And Facilitation Of A Focus Group
- Development and Facilitation of a Client Group
- Field Research Paper
- Coordination of Fundraising Event
- Grant Writing
- Community Needs Assessment

**Instructions for completion of field assignments:**

1) Once the assignment and assignment cover page is complete the student submits to their Field Instructor.

2) The field instructor should provide written and verbal feedback on each assignment. The overall content and quality of the completed assignment will assist the Field Instructor with a better understanding of the student’s ability to use critical thinking, and in the evaluation of their progress toward the development of social work competencies.

3) **Be sure to remove any client identifying information** before submission of assignment. Half of the assignments need to be completed and submitted by mid-term, with the exception of a major project, and the remainder needs to be uploaded into the Canvas Field Assignment dropbox.

***All students should become familiar with the confidentiality laws, (e.g. HIPAA, FERPA) and the NASW Code of Ethics and ensure compliance with relevant laws during all field education practicum activities.

**Field Requirements Summary**

- Learning Plan shortly after the first 40 hours in the practicum setting)
• Mid-Term Progress report (self-evaluation with Field Instructor ratings and feedback) – at 160 completed hours
• Verification of Field Hours (end of practicum)
• Final Self-evaluation
• Final Field Instructor evaluation

GRADING POLICY
The final grade earned by the student is determined by the following course components. Missing, late or unacceptable Learning Plans, Self-Evaluations, and Verification of Field Hours will result in a percentage reduction per missed document as follows:

- Learning Plan – 3%
- Mid-Term Self-Evaluation – 3%
- Final Self-Evaluation – 3%
- Field Hour Verification Form – 3%

Late documents will result in a 1.5% percentage point reduction per document.

GRADING POLICY
The final grade earned by the student is determined by the following course components:

<table>
<thead>
<tr>
<th>Grading Component</th>
<th>Percentage of Grade</th>
</tr>
</thead>
<tbody>
<tr>
<td>Demonstration of social work competencies, compliance with the NASW Code of Ethics and professional practice standards as documented in the aggregate score and narrative comments on the final evaluation</td>
<td>75%</td>
</tr>
<tr>
<td>Completion of assignments totaling five points per semester; Quality of field assignments including content, neatness, compliance with directions for assignment, and compliance with established due dates</td>
<td>25%</td>
</tr>
</tbody>
</table>

All field assignments must be completed and submitted before the completion of the final field hours. Assignments will not be accepted after the final evaluation is completed. Failure to turn in all of the required assignments will be reflected in the final grade reduction, according to the percentages outlined above. The Learning Plan and assignments must be completed and submitted within the required time frames. Assignments and Learning Plans turned in late will affect the overall grade percentage in the field education course. (Students who start the semester late will need to work with their Field Liaison regarding expectations related to assignment due dates.)

Field education is a social work course where grades are assigned based on overall student
progress. Students do not all get A's in the field course. Grades of B and B+ are acceptable
grades and indicate that the student has met the criteria for the semester. A grade of “A” is
awarded only for those students who have done exceptional work. A grade of B- is not
considered a passing grade for field education and requires that students repeat the field
course. This may impact a student's completion of the social work program.

If you have any questions related to the field assignments you should contact your assigned
Field Liaison.
