Quarterly Report Action Request

WHEREAS, there currently exists no process to update the Student Association on the record of legislation that’s passed, committee appointments, and legislation supported to commend the Senate on their efforts and encourage future action.

WHEREAS, this creates a difficulty in actively and reliably knowing about the legislative efforts of Senators.

WHEREAS, there has been interest expressed in quarterly reports by both Senators and members of the executive, past and present.

WHEREAS, a new system of record-keeping for committee appointments would increase efficiency and promote intra-Senate cooperation by allowing senators to reliably view each other’s appointments.

THEREFORE BE IT RESOLVED; that the Student Association Senate shall request the Secretary adopt the practice of maintaining a record of Student Association committee appointments, legislative pieces introduced, and legislation supported.

THEREFORE BE IT FURTHER RESOLVED; that the Executive Committee shall have discretion in the layout and form of the quarterly reports.

THEREFORE BE IT FINALLY RESOLVED; there shall be a release of quarterly reports, each semester, at a precise time chosen by the Executive Committee to enable the greatest exposure possible.
