Urban Studies 921: Research Methods in Urban Studies  
Fall 2020  
Instructor: Joel Rast  
Mondays, 4:30-7:10 pm  
Location: Bolton Hall, Room B79  
Office: Bolton Hall 626  
Office Hours: Tues. 2:30-4:00 (via Microsoft Teams)  
Email: jrast@uwm.edu

Course Overview

This course provides an introduction to the research methods that are most often used in the field of urban studies. All of you have undoubtedly engaged in some form of research at some point during your academic and professional lives. However, you may not always have been conscious or deliberate in your choice and use of research methods. There are a variety of methods that are useful and appropriate for conducting urban research. None is intrinsically better or worse than any other. Rather, the methodology (or methodologies) you use depends on the question you are asking. Some questions are best answered through qualitative research such as interviews or historical investigation. Other questions are better addressed through quantitative research techniques like regression analysis. This course will focus principally on qualitative research techniques. It is designed to help you think more deliberately and scientifically about your methodological approaches as you design and carry out social research.

Course Requirements

Class Participation: Weekly class sessions for this course will include discussions of the assigned reading material. Therefore, it is essential that you come to class each week well prepared. This means, obviously, that you must do the reading beforehand. Informed discussion of the material is one of the most important components of this class. Your participation in the class will be facilitated in two principal ways:

- **Presentations of readings:** Students will share responsibilities for presenting the readings each week. Presentations should consist of a brief (5-7 minute) overview of the reading and consider in particular methodological issues or questions raised by the reading.

- **Reaction pieces:** For each reading (excluding the text), students should write a paragraph containing comments or questions that can be used as a basis for contributing to class discussions. You should pay particular attention to methodological issues, themes, or questions which are raised by the readings. Reaction pieces may include a brief summary of the reading, but they should focus principally on reacting to the material rather than summarizing it. Reaction pieces should be between 1 and 2 pages (single-spaced) in length. They should be uploaded to the assignments section of the course Canvas website no later than the beginning of each class session.
Research Proposal: The final project for this course is a paper based on original research using one or more of the research methods covered in the course. To facilitate the research and writing of this paper, you will be asked to prepare an 8-10 page (double-spaced) research proposal, due **Monday, November 9**. The proposal will identify a research question that interests you and describe in detail both how you intend to investigate this question and why it is worth exploring. I will provide additional guidelines for the research proposal early in the semester. All proposal topics must be approved in advance by me. Once you have selected a topic please schedule a meeting with me so that we can discuss it.

Research Paper: The research proposal will serve as your framework and guide for preparing a 12-15 page (double-spaced) research paper. I will provide additional guidelines for the paper later in the semester. Papers will be due **Monday, December 21, 4:30 pm**.

Each of the above components will account for the following proportions of your final grade:

- Research Proposal  30 %
- Research Paper  40 %
- Reaction Pieces  20 %
- Class Participation  10 %

Required Books:

Full text versions of the additional readings are posted on the course Canvas site.

Submission of assignments: Due in part to the pandemic, we will operate with a paperless environment. All assignments will be submitted through the assignments page of the course Canvas site. No hard copies of assignments will be accepted.

**Important Information on Attending Class During Pandemic**

UWM has gone to great lengths to be able to offer face-to-face classes this semester in a way that creates a safe environment for students and faculty to meet. This means we will be meeting in a room designed to hold many more people than our relatively small group. It is important that everyone practices the social distancing that this large space allows. Please avoid standing or sitting any closer than 6 feet from any other person in the class, including me. Give your classmates plenty of room when entering or exiting the classroom.

Also, we will all need to wear masks anytime we are in the building or in the classroom. If you forget to bring your mask to class let me know. We will have some extras on hand.

Finally, if you are feeling at all unwell you should not attend class, even if you are not running a fever. There is no point in taking chances. If you do begin to develop Covid symptoms, please get tested as soon as possible. If your test is positive, it is very important that you notify me immediately. You should seek medical attention if your symptoms become worrisome.
Class Schedule

September 14: Course Overview; Introduction to Urban Inquiry
  • Babbie, chapter 1

September 21: Paradigms
  • Babbie, pp. 30-42; Kuhn (entire book)

September 28: Social Theory
  • Babbie, pp. 43-59.

October 5: Research Design
  • Babbie, chapter 4.

October 12: Literature Review
For this class, students should select 5-6 journal articles, read them, and write a short literature review of 3-4 pages (double-spaced) based on these readings which will be due at the beginning of class. This class session will be structured as follows:
  • We’ll break out into groups of between 3-4 students each.
  • We’ll then take roughly 20 minutes for everyone to read the literature reviews of their fellow group members.
  • Then each group will spend 15 minutes or so discussing each literature review individually.
    o Each student will take a few minutes to present their literature review.
    o Then fellow group members will have a chance to comment.
  • **Note:** Please email a copy of your literature review to your fellow groups members prior to the start of class.
October 19: Measurement
• Babbie, chapter 5.

October 26: Field Research
• Babbie, chapter 10.

November 2: Qualitative Data Analysis
• Babbie, chapter 13.

November 9: Research Sources Workshop (online)
Research proposals due. No reading assignment.

November 16: Community-Based Participatory Research
November 23: Unobtrusive Research

November 23: Unobtrusive Research
- Babbie, chapter 11.

November 30: Case Studies; Comparative Research

December 7: Research Week
Work on research paper. No class.

December 14: Research Presentations
Class presentations of research papers. No reading assignment.

Final papers due Monday, December 21, 4:30 pm.
