KEY UPDATES

MOU Management Plan
In the next week, the Project Management Office will be finalizing the draft MOU Management Plan and requesting feedback from the Receiving Institutions. The MOU Management Plan will provide detail on how the regional MOUs will be implemented and more fully outline the responsibilities of the functional areas impacted by the MOU.

Budget Crosswalks and Updated Pro Formas
This week, updated crosswalks for branch campuses were distributed for review to Chief Business Officers at the Receiving Institutions. Receiving Institutions also received updated pro formas and have been asked to submit feedback by May 17.

HLC Guidelines on Communications
As institutions prepare for student and employee transitions on July 1, 2018, it is important that all communications continue to clearly state “Pending approval by the Higher Learning Commission.” We understand there is eagerness to communicate to students and employees in advance of HLC approval in order to prepare for the future transition, but it is important that communications and marketing efforts do not get ahead of HLC’s decision.

If you have questions about whether a planned communication or marketing strategy violates the HLC process, please contact UWRestructuringInfo@uwsa.edu. The Project Communications Office is happy to review materials and escalate items that may warrant further consideration.
