KEY UPDATES

Revision to Travel Reimbursement for Mileage Expenses related to Restructuring

- The travel reimbursement policy has been revised. For more information, please see the attached memo.

Functional/Regional Team Notes

- Please continue to submit regular updates to the Project Management Office (PMO) as you have been until your team finishes work. If you feel that your team’s work is complete and there are no further updates to give, please let the PMO know so we can officially close the team out.
- Some Regional and Functional teams have largely completed their work and will be dropped from this weekly update as they officially close out. Those that are in the process of sunsetting are noted.
- Some Functional Teams have asked to be On Hiatus for a defined period, to reflect that they are not working toward Restructuring milestones for a few months; when On Hiatus, regular updates are not expected.
- The “Upcoming” section of the Project Milestones will contain all the milestones from the Restructuring Roadmap or Communications Roadmap with a target date in the next month. When that target date passes, Functional Team milestones will be moved to “Completed” as the PMO hears that they are complete. Regional milestones will be dropped from the “Upcoming” section as the target date passes but marked as completed in the Regional Team Updates as RIs report them completed, since different Receiving Institutions will complete them at different times.
